Prosperity Real Estate Investment Trust ("**Prosperity REIT**") is a real estate investment trust incorporated by a Trust Deed entered into on 29 November 2005, as amended by a first supplemental deed dated 12 December 2005 (collectively the "**Trust Deed**") and made between ARA Asset Management (Prosperity) Limited, as the manager of Prosperity REIT (the "**Manager**"), and HSBC Institutional Trust Services (Asia) Limited, as the trustee of Prosperity REIT. Prosperity REIT was the first private sector Real Estate Investment Trust ("**REIT**") to list on The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**") on 16 December 2005 ("**Listing Date**"). Prosperity REIT owns a diverse portfolio of seven high-quality commercial properties in Hong Kong.

DISTRIBUTABLE INCOME FOR THE YEAR

The annual distributable income of Prosperity REIT to unitholders of Prosperity REIT (the "**Unitholders**") for the year from 1 January 2006 to 31 December 2006 (the "**Reporting Year**"), amounted to HK\$151,549,000, which exceeded Forecast by 5.0%. The annual distributable income for the Reporting Year is calculated by the Manager as representing the consolidated net profit of Prosperity REIT and the subsidiaries of Prosperity REIT for that distribution period, after provision for tax, as adjusted to eliminate the effects of adjustments (as defined in the Trust Deed) including finance cost of HK\$74,998,000 (equivalent to HK\$0.0595 per unit) due to the interest rate swap, which have been recorded in the consolidated income statement.

DISTRIBUTION

It is the policy of the Manager to distribute to Unitholders an amount equal to 100% of Prosperity REIT's annual distributable income for each financial year. Pursuant to the Trust Deed, Prosperity REIT is required to ensure that the total amount distributed to Unitholders shall be no less than 90% of Prosperity REIT's annual distributable income for each financial year.

The distributable income of the half year from 1 July 2006 to 31 December 2006 is HK\$78,913,000, equivalent to distribution of HK\$0.0624 per unit. The interim distribution for the six months from 1 January 2006 to 30 June 2006 was HK\$0.0577 per unit, and the total distributable income per unit for the year is HK\$0.1201, outperforming the forecast in the Offering Circular ("**Forecast**") of HK\$0.1146 by 4.8%. The distribution will be paid on Friday, 27 April 2007.

PROSPECTS

2006 was a fruitful and challenging year for Prosperity REIT. Solid growth was achieved during the course of the year, reflected by our strong financial results.

By implementing proactive and well-planned business strategies, we continued to outperform the forecast in Prosperity REIT's offering circular ("**Forecast**") dated 5 December 2005 ("**Offering Circular**"). For the year ended 31 December 2006, a total distribution per unit of HK\$0.1201 was delivered, 4.8% more than the Forecast. Net asset value per unit rose by 5.3% to HK\$2.38 as at year end.

Market Review

Hong Kong's economy continued to prosper in 2006, boosted by thriving global markets and the territory's ongoing economic ties with the Mainland. Last year, Hong Kong's Gross Domestic Product ("**GDP**") leapt by 6.8% over 2005. Hong Kong's solid economic growth is expected to continue in 2007, driven by the rapid expansion of the Mainland economy, a weak US dollar, as well as an improving employment situation.

Against this positive economic backdrop, together with the U.S. Federal Reserve's policy of stabilizing U.S. interest rates at 5.25% since June 2006, the Real Estate Investment Trust ("**REIT**") market in Hong Kong has stabilized. As at year end, four out of the five REITs listed in Hong Kong offered an annualized dividend yield of over 6.8%, with a spread of over 300 basis points above the 10-year Exchange Fund Note yield.

REITs are relatively low-risk investment products, characterized by a stable rental income stream and a high distribution payout ratio. We are confident that the high dividend yield offered by Prosperity REIT, with a wide spread above the risk-free rate, will continue to attract investors.

In the office property market in Hong Kong, the buoyant finance, insurance, real estate and business services sectors have boosted demand for office space in the central business district, resulting in soaring rents in Central. As a consequence of escalating rents, there has been a growing trend of relocation to decentralized business districts, such as those areas where Prosperity REIT's portfolio of quality office and industrial/office properties are strategically located. It is expected that Prosperity REIT will continue to capitalize on this upward trend of decentralization.

The industrial and manufacturing sectors have benefited from robust trading activity in the year under review. Cross-border economic activities increased and were further strengthened through the implementation of Phase III of the Closer Economic Partnership Arrangement (“CEPA”) launched in July 2006. Under these favourable conditions, 2006 was another active year for both en bloc sales transactions and leasing activities in industrial/office and warehouse markets.

Operation Review

Leveraging on the Manager’s professional experience and management expertise, Prosperity REIT continued to outperform the Forecast and deliver higher returns to our unitholders. For the year under review, Prosperity REIT reported a net property income of HK\$167.5 million, exceeding the Forecast by 5.5%. A strong rental reversion rate of 56.7% was attained, complemented by a high tenant retention rate of 74.9%. The average effective unit rent of the portfolio rose by 18.8% to HK\$11.98 per sq. ft. The occupancy rate also improved to 97.4% as at 31 December 2006.

Through the Manager’s efficient streamlining of operations, the cost-to-revenue ratio was improved to 22.8% from the 25.0% as stated in the Forecast. The gearing ratio was lowered to 35.0% from 38.3% as at the end of the year, resulting in savings in our finance costs.

In tandem with strong organic growth, we have successfully secured two yield- accretive acquisitions in 2006, thereby increasing the Manager’s ownership shares in Prosperity Center and strengthening our management control in the building. The acquisitions are expected to bring in additional distributable income in 2007. Our investment team will continue to actively look for acquisition opportunities, with a view to generating more incremental returns to unitholders.

Going Forward

Looking ahead, as both the local and Mainland economies flourish, the office and industrial/office markets are expected to record continued growth on the back of keen demand from companies seeking expansion opportunities. With the overriding objective of maximizing returns for unitholders, the Manager will undertake well-planned asset enhancement initiatives to further strengthen our tenant base, as well as pursue yield-accretive acquisitions. We are confident that through the successful execution of our business plans, Prosperity REIT will continue to perform well and bring attractive distribution to our unitholders in 2007.

Acknowledgement

I would like to express my thanks to the outstanding efforts and commitment of the management teams of both the Manager and Goodwell-Prosperity Property Services Limited, the property manager of Prosperity REIT, as well as

the wisdom and guidance from my fellow Board members. They have all contributed greatly in our successful delivery of higher returns to our unitholders. Finally, on behalf of the Board, I thank you, our unitholders, for your continued support and confidence in Prosperity REIT.

New letting area of 252,561 sq. ft. plus lease renewed area of 463,380 sq. ft. have surpassed the total lease expired area by 15.7% during 2006. The average effective unit rent of the portfolio also grew to HK\$11.98 per sq. ft., which was 18.8% higher than that of the period from the Listing Date to 31 December 2005.

Due to the Manager's efficient streamlining of operations, cost-to-revenue ratio improved to 22.8% from Forecast's 25.0%. Gearing ratio was also able to come down to 35.0% as at the year end date from 38.3% of 2005.

Investment Review

With a view to deliver improved returns for unitholders, the Manager has been actively looking for yield accretive acquisition opportunities. In the fourth quarter of 2006, we purchased the entire 10th floor and additional units on the 26th floor in Prosperity Center. The transactions were successfully completed in January 2007, thereby enabling

the Manager to increase ownership shares in Prosperity Center to 53.4% from 49.0%, strengthening our management control in the building.

The acquisitions were consistent with the Manager's investment strategy. We believe that the purchase will contribute higher efficiency in operation management and will achieve better cost effectiveness.

The Manager has been operating Prosperity REIT in accordance with its asset management, financing and acquisition strategies set forth in the Trust Deed and the Offering Circular. The Manager will continue to diligently lead Goodwell-Prosperity Property Services Limited and manage the assets of Prosperity REIT for the benefit of Unitholders. Given the strong momentum of Hong Kong's leasing market as underpinned by the buoyant finance, insurance, real estate and business services sectors, we are confident that Prosperity REIT will continue to perform well in 2007.

The revenue and net property income of each property in the portfolio for the Reporting Year are summarized as follows:

Total	<u>180,349</u>	<u>36,778</u>	<u>217,127</u>	<u>167,535</u>

Revenue

During the year, revenue stood at HK\$217.1 million, which was HK\$5.6 million or 2.6% higher than Forecast.

The revenue was made up of HK\$180.3 million of rental and car park income, plus HK\$36.8 million of rental

related income. Rental and car park income was HK\$6.7 million or 3.9% above Forecast. The increase was mainly due to an increase in average occupancy rate.

Net Property Income

Net property income was HK\$167.5 million, exceeding Forecast by HK\$8.8 million or 5.5%. The growth was attributed to higher revenue and lower total property operating expenses.

The total property operating expenses was HK\$49.6 million, which was HK\$3.2 million lower than Forecast. The improvement was a result of the Manager's cost control measures.

Net property income represented approximately 77.2% of the revenue, after the deduction of property management costs and property operating expenses. The cost-to-revenue ratio has improved to 22.8% from Forecast's 25.0%.

Liquidity and Financing

As at the year end, Prosperity REIT had a facility of HK\$1,900 million, comprising a HK\$1,770 million term loan facility and a HK\$130 million revolving credit facility, each for a term of five years. The whole term loan facility was fully drawn on the Listing Date and revolving credit facility amounted to HK\$20 million was drawn down. The term loan is repayable five years from the date of the drawdown. The revolving facility will be repaid on each maturity date and can be redrawn upon maturity.

Each of the term loan facility and the revolving credit facility bears interest at a variable rate. In order to hedge against fluctuations in interest rate under the term loan, effective on the Listing Date, Prosperity REIT's finance company entered into interest rate swap agreements for a total notional amount equivalent to HK\$1,770 million. Under the terms of the interest rate swap arrangement, the interest rate of the term loan portion of the facility will be fixed from the Listing Date until 16 December 2010 at an average interest rate of 1.4% per annum.

The total borrowings of Prosperity REIT, excluding the origination fees, as a percentage of Prosperity REIT's gross assets was 35.0% as at the year end date, whereas the gross liability of Prosperity REIT as a percentage of Prosperity REIT's gross assets was 41.9%.

Prosperity REIT with a cash balance of HK\$41.7 million and available revolving credit facility of approximate HK\$110 million as at 31 December 2006, has sufficient financial resources to satisfy its commitments and working capital requirements.
